GOODBYE CURTAINS & BLINDS – SWITCH TO SMART FILM GLASS

Traditional curtains and blinds are outdated—they collect dust, require constant maintenance, and often break. It's time to upgrade to Smart Film Glass, a modern, stylish, and hassle-free privacy solution.

Why Replace Old Curtains & Blinds?

High Maintenance – Curtains trap dust; blinds break easily.

Limited Control – No flexible privacy options.

Outdated Look – Bulky and not in sync with modern interiors.

Manual Effort – Requires frequent adjustments.

Smart Film Glass – The Future of Privacy

- > **Instant Privacy** – Switch from transparent to opaque with a button.
- > **Sleek & Modern** – Enhances any space with a minimalist look.
- > **Low Maintenance** – No dust, no hassle!
- > **Energy Efficient** -- Reduces heat and glare for a comfortable space.
- > **Long-Lasting** – No mechanical failures, just seamless performance.

CONTROL YOUR SMART FILM IN MULTIPLE WAYS

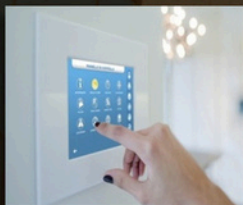

MOTION SENSOR

Integrating motion sensors with privacy-centric systems enables real-time adjustments to privacy settings depending on occupancy.

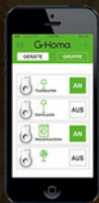

DIMMER

Progressively adjust to your desired level of privacy from transparent to opaque through dimmer controls.
